DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,3,4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Yajima et al. (5757327).

Regarding Claims 1,3,4 and 6, Yajima et al. show in Fig. 35, for example, an automobile antenna 801 mounted outside of a body panel "X", comprising a base member 803 with electrical parts thereon, a cover 804 and a pad member 805 made of elastic material fitted internally on to the cover 804,804a and covering an underside of a peripheral portion 803,803a, all arranged as claimed. Regarding Claim 3, an outer periphery wall 404c (Fig. 34) on the cover and an inner wall 404e are both arranged as claimed and the base has an annular projection (403c) as recited. Regarding Claims 4 and 6, a waterproof rib 404e is clearly shown in Fig. 34, arranged as claimed.

Allowable Subject Matter

3. Claims 2 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
